Programme design

Section 4 Planning and implementation

Handout 1

Implementation choices and scope of interventions **Questions to consider when deciding how to resolve capacity gaps**

To improve the capacity of duty bearers to meet their responsibilities

- What changes or combinations of changes will be necessary in order for there to be an improvement in the enjoyment of the rights that are presently not being realised? How do these changes link together?
- Which of these changes should take priority?
- Who is in the best position to bring about the change?

To improve the capacity of rights holders to make claims on duty bearers

- What can be done to empower those with rights (children, children and their parents or guardians) to strengthen their claims on duty bearers?
- Who is in the best position to bring about this change?
